RE: Certification of CPNI Filing
February 6, 2006
Docket Nos. EB-06-TC-060 and 06-36

Dear Ms. Dortch:

Everest Midwest (FRN 0004-0690-35) is facilities-based broadband service provider offering bundled voice, video and high-speed Internet service to several municipalities in the Greater Kansas City area.

This letter serves as notification to the Commission of Everest Midwest's compliance with 49 CFR 64.2009. Everest's procedures for the use of CPNI are set forth in on its website, www.everestkc.net and its customer handbook, which is provided to subscribers at the time they initiate service. With respect to CPNI, the customer handbook states as follows:

Local exchange carriers are required to provide subscribers' names and addresses, whether published, unpublished or unlisted to providers of emergency support services for the purposes of delivering or assisting in the delivery of emergency services. With respect to customer proprietary network information ("CPNI"), which is defined as information that relates to the quantity, technical configuration, type, destination, location and amount of use of a telecommunications service subscribed to by a customer, customer may, after receiving notice of the options, opt-out of having CPNI shared with a local exchange carrier's affiliates, agents and joint venture partners. Customers must be given the right to opt-in to a disclosure of CPNI to third parties.

Since its inception in 2000, Everest has not provided CPNI to affiliates, agents, joint venture partners or third parties. If Everest discovered that one of its employees had violated this policy, that employee would be subject to suspension and/or dismissal for violation of company policy.

Should the Commission have any inquiries about Everest's CPNI policies, please contact Rachel Reiber, vice president of regulatory and government affairs at 913.322.9624.

Phillip A. Spencer
President
